CODECHEF | GITHUB | LINKEDIN | HACKERRANK | PORTFOLIO

## EDUCATION

HARCOURT BUTLER TECHNICAL UNIVERSITY  
BACHELORS CHEMICAL TECHNOLOGY

Aug 2017 - Jun 2021  
Kanpur, Uttar Pradesh

## EXPERIENCE

ZEEVE | BLOCKCHAIN DEVELOPER

Remote | Sep 2021 – Present

- Designing and developing the smart contracts used for Ethereum, Avalanche, and Lisk blockchain.
- Previously worked as a Full Stack Developer (NodeJs, React, Docker, Nginx, Aws). My main work was creating the backend microservices for fetching the data from the Decentralized Applications.

COGNIZANT | INTERN

Remote | Jan 2021 – Jul 2021

- Worked with the team and build a Resume Builder using ASP.NET MVC technology. The validation part is done using AJAX. I have developed the Controller Part of the application with their views and Integrated it with the SQL Server using Entity Framework

## SKILLS

PROGRAMMING LANGUAGES	C++ (Proficient), Solidity, TypeScript, SQL, C#, Shell Script, Python
LIBRARIES/FRAWORKS	Truffle, Hardhat, Web3.js, Express (NodeJS), React, ASP.Net, Lisk SDK
TOOLS / PLATFORMS	Ganache, Geth, Remix, IPFS, Linux, Docker, Aws, Chai & Mocha, Git
DATABASES	MySql, Sql Server, Postgresql, Firebase Realtime & Firestore DB

## PROJECTS / OPEN-SOURCE

MULTI SERVICES APPLICATION | [LINK](#)

NodeJs, React, Docker, Nginx, Openssl

- A Dockerize app with separate microservices for frontend, backend, and database covers all the networking parts (Custom client and server-side headers, cors enabled, SSL certificate) with reverse proxy, load balancer, cache memory implementation, and proper business logic structure (server -> router -> controller -> services
- > business logic).

GITHUB FETCHER | [LINK](#)

React, Firebase, Github Api

- Fetch the GitHub user's Public data by just entering the username of the GitHub user after a successful login. React-based Web app using the public GitHub API and Firebase as a Back-end.

NWOC ALGORITHMS | [LINK](#)

Pure Algorithm's Based

- I had participated in the NJACK winter of code (Edition 2019-20). worked on a project named NWOC ALGORITHMS and become the top contributor to the project with 22 commits.

## HONORS & AWARDS

- Mentor at GSSOC'21 organized by GirlScript Foundation.
- Secured 177 Global ranks out of 35k+ participants in CodeChef September Long Challenge and Secured 1790 Global ranks out of 28k+ participants in CodeChef August Long Challenge.
- Honored by R. K. Trivedi (Head of Oil Technologist Association of India) for creating a whole main website for the organization.
